This newly updated edition of a highly regarded the principles of macroeconomics text provides your students with the most up-to-date information available. Cases, tables, data, and more were updated to reflect 2003 data. The text also has a four-color internal and full supplement package that complements the text's superb conversational style, which engages students like none other. Principles of Macroeconomics, 4e represents the results Fred Gottheil's career as an outstanding professor and author. This edition is maintains the proven structure and style of previous editions while updating content to make it even more valuable to professors and students alike. The author continues to use familiar stories, illustrations, scenarios, and a direct-to-student writing style to appeal to students' interests. The narrative is built around questions, which cut the distance between the student and the unfamiliar concepts of economics. Instead of covering hundreds of topics superficially, the book presents basic concepts in depth and develops economic analysis step-by-step. The result—learning economics becomes relative, interactive and appealing versus mere passive course participation.

Sources in Chinese History, now in its second edition, has been updated to include re-translations of over a third of the documents. It also incorporates nearly 40 new sources that work to familiarize readers with the key events, personages, and themes of modern China. Organized thematically, the volume examines China's complex history from the rise of the Qing dynasty in the mid-seventeenth century through the formation of the People's Republic of China up to the present. Each chapter begins with an annotated visual source followed by a chapter introduction and analysis of textual sources, allowing students to explore different types of sources and topics. Sources in Chinese History contextualizes the issues, trends, and challenges of each particular period. Special attention has been made to incorporate a variety of viewpoints which challenge standard accounts. Non-traditional documents, such as movie dialogues, are also included which aim to encourage students to reconsider historical events and trends in Chinese history. This volume includes a variety of sources, such as maps, posters, film scripts, memorials, and political cartoons and advertisements, that make this book the perfect introductory aid for students of Chinese history, politics, and culture, as well as Chinese studies after 1600.
