Child Protection Worker Selection Test - ProProfs Quiz

Assessment in child protection consists of several key functions, many of which may occur continuously throughout the life of a case. Various assessments of risk, safety, child and family functioning, and trauma occur at screening, intake, investigation/assessment, ongoing child protection, and case closure. Throughout the assessment phase, caseworkers may face unique challenges in responding to the varying types of child abuse and neglect or responding to families who have a recurrence of ...
