Without question, this is the definitive grammar of the Hawaiian language. Indeed it is the first attempt at a comprehensive treatment of the subject since W.D. Alexander published his concise Short Synopsis of the Most Essential Points in Hawaiian Grammar in 1864. This grammar is intended as a companion to the Hawaiian Dictionary, by the same authors. The grammar was written with every student of the Hawaiian language in mind - from the casual interested layperson to the professional linguist and grammarian. Although it was obviously impossible to avoid technical terms, their use was kept to a minimum, and a glossary is included for those who need its help. Each point of grammar is illustrated with examples, many from Hawaiian-language literature.

"So many of the children in this classroom are Ho-Chunk, and it brings history alive to them and makes it clear to the rest of us too that this isn't just...Natives riding on horseback. There are still Natives in our society today, and we're working together and living side by side. So we need to learn about their ways as well." --Amy Laundrie, former Lake Delton Elementary School fourth grade teacher
